## FOREWORD

The Public Financial Management Act 2012, section 126 requires that every County Government shall prepare its Annual Development Plan (ADP), in accordance with Article 220(2) of the Constitution. The County Treasury is required to prepare the ADP in accordance with the format prescribed by regulations and submit to the County Assembly for its approval, and send a copy to the Commission on Revenue Allocation.

This Plan has taken into account development strategic priorities/programmes as stipulated in the County Integrated Development Programme (CIDP) 2018 - 2022 and other national plans. The ADP describes how the County Government is responding to changes in the financial and economic environment towards the programmes to be delivered with details for each programme including the strategic priorities to which the programme will contribute to; the services or goods to be provided; the measurable indicators of performance where feasible; and the budget allocated to the programme.

The plan is focused on the County's vision of a secure, just, integrated and prosperous county where all enjoy full potential and high quality of life. The Annual Development Plan has been developed towards achieving the goals setting the County Integrated Development Plan 2018-22 that includes: (1) Food security; (2) Infrastructure Development; (3) Livelihood Enhancement; (4) Public Participation; (5) Provision of social amenities; (6) Strengthen Structures for Resource Mobilization and Management; and (7) Supportive Framework for Private Sector growth and Participation in Economic development of the County. The Annual Development Plan has been developed through a consultative process where all county departments identified key priorities/programmes to be implemented and their performance standards.

I wish to thank my Chief Officer for providing overall leadership in the preparation of this document. In conclusion I wish also to thank the Economic Planning team that worked tirelessly to compile and come up with this Annual Development Plan 2019/2020.

The implementation of this plan require determined effort from all stakeholders both from within and outside to bring on mainstreamed networks and coordination of wider public private partnership and other development partners for the benefit of the citizens. I therefore call upon all people of Isiolo to rally behind this Plan so that we can all work together to ensure success in its implementation.

**MR. MWENDA THIRIBI**  
**COUNTY EXECUTIVE COMMITTEE MEMBER - FINANCE & ECONOMIC PLANNING**

## ACKNOWLEDGEMENT

First, I wish to acknowledge H.E Gov. Mohamed Kuti for his continued political leadership and support in developing this Annual Development Plan. Special recognition goes to the County Executive Member for Finance and Economic Planning, Mr. Mwenda Thiribi, under whose direction, support and guidance that this assignment was undertaken.

I wish to register my appreciation to all those who have been working relentlessly in providing technical backstopping of the entire ADP preparation process, in particular the Economic Planning team. They tirelessly worked round the clock to co-ordinate, compile, edit and finalize the plan.

I also wish to extend my sincere appreciation to AHADI Kenya who supported the entire process not forgetting the line County Departments who provided valuable inputs and thereby adding value towards the development of the final document. The County Treasury is grateful for their input.

**MR. PATRICK LENAWASAE**  
**CHIEF OFFICER - ECONOMIC PLANNING**

## EXECUTIVE SUMMARY

The Annual Development Plan (ADP) 2019/20 is the second in a series of successive one year medium term plans which will implement the Programmes identified under the second County Integrated Development Plan (CIDP) 2018-22. The County has built up a strong foundation which focuses on the journey to prosperous County for all its residents. This can only be achieved through the adoption of a growth strategy based in Programmes that Improve livelihoods through provision of basic services, maximization of production, building a peaceful and cohesive society, generate employment most rapidly, and improve the income generating opportunities for the poor. To achieve the expected economic growth, create impact in the county and realize the vision of a secure, just, integrated and prosperous county where all enjoy full potential and high quality of life.

Specific Programmes have been identified in each sector. Though these Programmes are County specific, they are also in harmony with other development policies and documents and more specifically the third Medium Term Expenditure Framework, the Kenya Vision 2030, the Constitution of Kenya, 2010 and finally other international development commitments like the Sustainable Development Goals (SDGs).

The Plan also takes into account mainstreaming of minority rights into the development process. Some of the minority groups covered in this document that need special treatment are: women, youth and the physically challenged.

This ADP is presented in five sections. Section one provides a legal background and overview of the plan, and the County's response to changes in financial and economic environment. Section two provides county development review analysis for the FY 2017/2018. Section three gives details of the County Strategic Priorities. Section four gives the budget needs and responses and review of expected revenues. Chapter five summarizes the budgetary allocation per sub - programme, and a monitoring and Evaluation matrix.

To implement this Plan the County government needs to lobby Development Partners need to join hands to offset the anticipated deficit.

## CHAPTER ONE: INTRODUCTION

### 1.1 Overview of the County

Isiolo County is poised to become an economic elephant, an industrial hub and an international trading centre. Across the beautiful hills, valleys, acacia trees and the savannah grasslands of the county, winds of change are blowing. Isiolo is a virgin space, a wonderful piece of creation. The people of Isiolo and Kenyans alike are up-beat on how they are going to fit into the Isiolo County and its ecosystem. Isiolo sits at the centre of the world that is watching keenly at the unfolding developments taking place there. Isiolo strategic position is irresistible and attractive to local and international investors. The County boast of abundant land, tourist attraction sites and minerals which are held dear by the residents as major economic resources. Livestock production remains the biggest economic activity with approximately 80% of the population relying on it. The County has its fair share of natural wealth being endowed with three national game reserves namely, Shaba, Buffalo Springs and Bisanadi. The chapter provides the background information of the County in terms of size and population profile. It further explains the linkage between this plan and the CIDP and also the Plan preparation process

#### 1.1.1 Position of Isiolo County

Isiolo County borders Marsabit County to the North, Samburu and Laikipia Counties to the West, Garissa County to the South East, and Wajir County to the North East, Tana River and Kitui Counties to the South and Meru and Tharaka Nithi Counties to the South West. It covers an area of approximately 25,700 km<sup>2</sup>. It is located between Longitudes 36° 50' and 39° 50' East and latitude 0° 05' South and 2° North. Isiolo town lies 285 kilometres North of Nairobi, the Capital City of Kenya by road.

#### 1.1.2. Administrative and Political Units

The County has two constituencies, three sub-counties and ten wards

## Key Achievements

- Purchase of oxygen plants for Garbatulla and ICRH
- Operationalization of the renal unit at the ICRH
- Construction of 5 new health facilities (dispensaries)

## Challenges in the Implementation of the Sector Programmes

Challenges	Mitigation measures
Inadequate finances to implement various projects and activities	Provision of adequate funds
Dilapidated Infrastructures	Rehabilitation of dilapidated infrastructures
Ineffective monitoring and evaluation	strengthening of M&E
Delay of completion of projects on time	Adherence to annual work plans

## Lessons learnt and Recommendations

- For the department to continue achieving meaningful development there is need to foster partnerships and collaboration between various development partners and increase budgetary allocation in key strategic priorities.
- There is need to continue embracing community involvement in programme planning, implementation and monitoring to promote community ownership and sustainability within the health sector.
- There is need to build capacity of the health workers in terms of staffing and basic resources like vehicles for monitoring and coordination of programmes in the County.
- There is need to put the policy frameworks in place for allocated funds so that their implementation is carried out as planned in the budget.
- There is need to come up with realistic figures for the projected local revenue to avoid downward revision of the budget due to unrealized revenue targets since this affects implementation of the programs in the health sector.

## 2.1.4 Lands, Physical Planning, Surveying and Housing, roads and public works

**Challenges in the Implementation of the Sector Programmes**

Challenges	Strategies/Mitigation measures
Inadequate technical expertise	Capacity build the staff through trainings
Inadequate staffing levels	Employ relevant staff to boost the level of staffing
Inadequate physical infrastructure	Establish necessary infrastructure
Inadequate funds and resources	Adequate budgetary allocation to programmes/projects
Non performing staff	County staff should be put under performance appraisals
Lack legislative framework for ICT	Develop bills on ICT

## SECTION THREE

### COUNTY STRATEGIC PRIORITIES FOR FY 2019/20

#### 3.1 Introduction

This chapter presents sector/sub-sector strategic priorities, programmes and projects for the year 2019/2020.

#### 3.1.1 Agriculture, Livestock, Fisheries and Irrigation

##### Vision

Food secure and wealthy county anchored on an innovative, commercially oriented and competitive agriculture sector.

##### Mission

To improve the livelihood of Kenyans and ensure food and nutrition security through creation of an enabling environment and ensuring sustainable natural resource management.

##### Goal

To attain food and nutrition security and income through increased production and value addition in livestock, agriculture and fisheries investments.

##### The strategic priorities of the sector/sub-sector

Sub-sector	Development Needs	Priorities	Strategies
Agriculture	Water harvesting for crop production	Development and expansion of land under irrigation and water infrastructure	Establish/ expand irrigation schemes Promotion climate smart agriculture technologies Promotion of water harvesting technology
	Reduction of pre and post-harvest losses	Control for pest and diseases food reserves/storage	Establishing agro processing technologies Integrated pest management (IPM)
	Enhance access to farm inputs	Subsidies for inputs (certified seeds, fertilizers, pesticides and equipment) Targeting resource poor farmers	Capacity building Organising for change(cooperatives) and linking to private stockist
	Crops enterprise and markets development	Value chain development of prioritised enterprise	Increase of farmers awareness of key market information Agriculture commercialization
	Ease of land preparations (Mechanization services)	Enhancement of land preparation	Provide subsidized mechanization services; capacity builds farmers.
	Human resource development	comprehensive succession plan	Recruitment, in-service trainings, refresher courses and promotions
	drought tolerant crops	Promote green gram, cow peas, Katumani beans and Nerica rice	Climate Smart technology Promotion of extension, research and farmers linkage
Livestock	Sustainable availability and supply of livestock feed	Increase feed availability and strategic feed reserves	Integrated development & management of rangelands and commercialization of pasture production. Enhance fodder production. Promotion of livestock feed lots and feed marketing.
	Increasing value of livestock and productivity of livestock	Enhancing uptake of value added technology, promote Climate adaptable breeds	Livestock breeding programs. Promote transfer of modern production technology.

<b>Sub-sector</b>	<b>Development Needs</b>	<b>Priorities</b>	<b>Strategies</b>
	livestock enterprise and markets development	Commercialization of livestock production	Livestock systems development and risk sharing, Development of marketing infrastructure (markets, abattoir, processing plants) and information sharing.
	Quality assurance of livestock and livestock products	Adherence to standards, both local and international	Livestock identification and traceability Quality certification Enhanced products inspections Establishment of disease free zones/Quarantine areas
	Control of livestock diseases and pests	Reduce incidences of diseases including trade sensitive diseases	Targeted vaccinations and pest control programmes Screening for disease diagnosis supported by functional laboratories. Disease surveillance, Treatment of the sick animals livestock movement control
Fisheries	Exploiting the potential for fish farming in the county	Increase investment in fishery sector and uptake of fish production	capacity building on adoption fish farming Dietary diversity
	Quality assurance of fish products	Adherence to standards	Inspection of Fish products, improve grading, packaging and transportation.
	Fish technology development	Enhance river line capture fisheries and farming technology	Expansion of area under fish ponds promotion of fish marketing system

## CHAPTER FIVE: MONITORING AND EVALUATION

### 5.1 Chapter Overview

The chapter explains how projects and programmes to be implemented during the plan period will be monitored and evaluated. It also outlines objectively verifiable indicators that will be used to monitor the progress of implementation of projects and programs

### 5.2 Monitoring

Monitoring is the process of continuously keeping track of implementation of a Programme or project activities within a period of time at specified intervals to assess progress. It entails collection and analysis of data to determine whether planned activities have been done. Monitoring of the entire process from planning, designing and implementation is very important as it keeps the planned activities in check, reduces duplication, wastages, allows for remedial measures to be taken and ensures the projects/programmes delivery on time.

#### a) Monitoring and Evaluation Exercise

The Monitoring and Evaluation Unit in the department of Economic Planning will monitor progress of implementation of projects and programmes. The unit will carry out quarterly monitoring and evaluation of the progress of implementation of planned projects and prepare reports for submission to relevant personnel for action.

#### b) Review Meetings

After preparation of the monitoring report, there shall be review meetings to assess the report and map a way forward. This will keep the plans' activities and outputs on track during implementation, and enable the relevant personnel to identify and take necessary actions to address any emerging issues.

### 5.3 Evaluation

Evaluation entails checking the impacts the project/Programme activities has had on the community. It builds on the monitoring process by identifying the level of short to medium-term outcomes and long-term impacts achieved; the intended and unintended effects of these achievements; and approaches that are working well and those that do not work well.

The evaluation process will be done at the end of the plan period to ascertain the level of implementation of the Programmes and achievement of the plan objectives. This will involve checking on appropriateness, effectiveness, efficiency, lessons learnt and also provide feedback.

### 5.4 M&E Structure in the County

To ensure the required emphasis on M&E receives full attention from all county staff involved in its preparation and reporting, M&E targets and indicators should be linked directly to the performance management of the county, including Performance Contracts of CEC members and the work plans of chief officers and ministries. Quarterly performance reviews by ministry and for the entire county should be chaired by the CEC Member and the Governor respectively.

### 5.5 Reporting

Reporting is important in this process because it provides feedback to establish the challenges, successes and weaknesses in the implementation of various projects and programmes and whether the set objectives can be achieved or are on course. Reports will be prepared and submitted to the County Planning Unit (CPU) in order to prepare progress reports.

County, Sector and Sub-county Quarterly Monitoring and Evaluation Reports will be prepared and submitted on a quarterly basis. A County Quarterly Monitoring and Evaluation Report (CQMER) and a County Half Year Monitoring and Evaluation Report will also be prepared to capture progress during a quarter period of the year and half period of the year respectively. Finally, a County Annual Monitoring and Evaluation Report (CAMER) is produced and submitted to the County Planning Unit for preparation of the Annual Progress Report. These reports will outline in summary the projected targets, achievements, facilitating factors and challenges faced. These reports prepared by CPU are for submission to the Governor's office for information, use and dissemination to the stakeholders. Issues requiring policy interventions will be submitted to the County Executive Committee for action.

### **5.6 Data Collection, Analysis and Reporting**

The monitoring and evaluation exercise will be carried out by the officers from the County department of Economic Planning and Investments together with relevant technical officers from the implementing department and public works personnel where necessary. The exercise will entail physical observation of the projects and programmes being implemented, actual verification of items delivered where applicable and survey of stakeholders to ascertain the impact of the projects/programmes.

The Monitoring and Evaluation data will be analyzed and reports prepared for submission to the Governor for his information and appropriate action. These reports will outline in summary the period achievements, shortcomings, challenges faced and recommendations.

The reports shall be stored manually in the manual files as backups but shall also be stored electronically in the computers and retrieved when need arises. All implementation progress reports will be posted on the official County website for circulation and consumption by stakeholders.

The annexed tools will be used for data collection during the field exercise.

### **5.7 M & E Indicators**

A list of indicators relating to the overall strategic objectives of the plan has been developed. This will enable the monitoring of the activities of the projects and programmes being implemented and provide information on whether the aims are being met.

The following are the indicators developed;
