Only the Financial Proposal of the technically top-ranked Consultant is opened by the opening committee. All other Financial Proposals shall be returned unopened after the Contract negotiations are successfully concluded and the Contract is signed with the successful Consultant.

When the selection is based on the SSS method and if the invited Consultant meets the minimum technical score required passing, the financial proposal shall be opened and the Consultant invited to negotiate the contract.

23.3 Financial Proposals for **QCBS**, FBS, LCS

Following the ranking of the Technical Proposals, and after internal approvals, the Procuring Entity shall simultaneously notify in writing those Consultants whose Proposals were considered responsive to the RFP and TOR, and that have achieved the minimum qualifying technical score, advising them the following: (i) their Proposal was responsive to the RFP and TOR and met the minimum qualifying technical score; (ii) provide information relating to the Consultant's overall technical score, as well as scores obtained for each criterion and sub-criterion;(iii) their Financial Proposal will be opened at the public opening of Financial Proposals; and (iv) notify them of the date, time and location of the public opening and invite them for the opening of the Financial Proposals.

23.4 **Opening of Financial Proposals**

The opening date should allow the Consultants sufficient time to decide for attending the opening and shall be no less than five (5) Business Days from the date of notification of the results of the technical evaluation, described in ITC 22.1 and 22.2.

The Consultant's attendance at the opening of the Financial Proposals (in person, or online if such option is indicated in the Data Sheet) is optional and is at the Consultant's choice.

The Financial Proposals shall be opened publicly by the Procuring Entity's opening committee in the presence of the representatives of the Consultants and anyone else who chooses to attend. Any interested party who wishes to attend this public opening should contact the Procuring Entity as indicated in the Data Sheet. At the opening, the names of the Consultants, and the overall technical scores, including the break-down by criterion, shall be read aloud. The Financial Proposals will then be inspected to confirm that they have remained sealed and unopened. These Financial Proposals shall be then opened, and the total prices read aloud and recorded. Copies of the record shall be sent to all Consultants who submitted Proposals.

24. **Correction of Errors**

24.1 Activities and items described in the Technical Proposal but not priced in the Financial

Proposal, shall be assumed to be included in the prices of other activities or items, and no corrections are made to the Financial Proposal.

24.2 Time-Based Contracts-If a Time-Based contract form is included in the RFP, in case of discrepancy between (i) a partial amount(sub-total) and the total amount, or (ii)between the amount derived by multiplication of unit price with quantity and the total price, or (iii) between figures and words, the later will prevail. In case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the Procuring Entity's evaluation committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost.

24.3 Lump-Sum Contracts - If a Lump-Sum contract form is included in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical correction nor price adjustments shall be made. The total price, net of taxes understood as per ITC 24 below, specified in the Financial Proposal (Form FIN-1) shall be considered as the offered price.

25. Taxes

25.1 Subject to ITC 24.2, all taxes are deemed to be included in the Consultant's financial proposal as separate items, and, therefore, considered in the evaluation.

25.2 All local identifiable taxes levied on the contract in voices (such as sales tax, VAT, excise tax, or any similar taxes or levies) and in come and withholding tax payable to Kenya on the remuneration of non-resident Experts for the services rendered in Kenya are dealt with in accordance with the instructions in the Data Sheet.

26. Conversion to Single Currency

26.1 For the evaluation purposes, prices shall be converted to a single currency using the selling rates of exchange, source and date indicated in the Data Sheet.

27. Abnormally Low Prices

27.1 An Abnormally Low Price is one where the financial price, in combination with other constituent elements of the proposal, appears unreasonably low to the extent that the price raises material concerns with the Procuring Entity as to the capability of the Consulting firm to perform the Contract for the offered price.

27.2 In the event of identification of a potentially Abnormally Low Price by the evaluation committee, the Procuring Entity shall seek written clarification from the firm, including a detailed price analyses of its price in relation to the subject matter of the contract, scope, delivery schedule, allocation of risk sand responsibilities and any other requirements of the RFP document.

27.3 After evaluation of the price analyses, if the Procuring Entity determines that the firm has failed to demonstrate its capability to perform the contract for the offered price, the Procuring Entity shall reject the firm's proposal.

28. Abnormally High Prices

28.1 An abnormally high price is one where the proposal price, in combination with other

constituent elements of the proposal, appears unreasonably too high to the extent that the Procuring Entity is concerned that it (the Procuring Entity) may not be getting value for money or it may be paying too high a price for the contract compared with market prices or that genuine competition between Consultants is compromised.

- 28.2 In case of an abnormally high tender price, the Procuring Entity shall make a survey of the market prices, check if the estimated cost of the contract is correct, and review the RFP to check if the specifications, TOR, scope of work and conditions of contract are contributory to the abnormally high proposals. The Procuring Entity may also seek written clarification from the Consultants on the reason or the high proposal price. The Procuring Entity shall proceed as follows:
- i) If the proposal price is abnormally high based on wrong estimated cost of the contract, the Procuring Entity may accept or not accept the proposal depending on the Procuring Entity's budget considerations.
 - ii) If specifications, TOR, scope of work and/or conditions of contract are contributory to the abnormally high proposal prices, the Procuring Entity shall reject all proposals and may re-invite for proposals for the contract based on revised estimates, specifications, TOR, scope of work and conditions of contract.
- 28.3 If the Procuring Entity determines that the Proposal Price is abnormally too high because genuine competition between Consultants is compromised (*often due to collusion, corruption or other manipulations*), the Procuring Entity shall reject all Proposals and shall institute or cause competent Government Agencies to institute an investigation on the cause of the compromise, before re-inviting for proposals.

29. Combined Quality and Cost Evaluation

a. Quality and Cost Based Selection (QCBS) Method

- 29.1 In the case of Quality and Cost Based Selection (QCBS), the total score is calculated by weighting the technical and financial scores and adding them as per the formula and instructions in the Data Sheet. The Consultant that achieves the highest combined technical and financial score will be notified and invited for negotiations.

b. Fixed Budget Selection (FBS) Method

- 29.2 In the case of FBS, those Proposals that exceed the budget indicated in ITC 14.1.4 of the Data Sheet shall be rejected. These discussions shall not substantially alter the original scope of services under the TOR or the terms of the contract, lest the quality of the final product, its price, or the relevance of the initial evaluation be affected.

32.6 Financial negotiations

The financial negotiations include the clarification of the Consultant's tax liability in Kenya and how it should be reflected in the Contract. All applicable taxes shall be itemized separately and included in the contract price.

- 32.7 If the selection method included cost as a factor in the evaluation (that is QCBS, FBS, LCS), the unit rates and the total price stated in the Financial Proposal for a Lump-Sum contract shall not be negotiated.
- 32.8 Where QBS or CQS methods was used for a *Lump-sum Contract* as indicated in the RFP, the unit rates negotiations shall not take place, except when the offered Key Experts and Non-Key Experts' remuneration rates are much higher than the typically charged rates by consultants in similar contracts or the professional practice. 3. APPENDIX TO FORM OF PROPOSAL ON FRAUD AND CORRUPTION CLAUSE (for information)

(Appendix shall not be modified)

Purpose

the government of Kenya's Anti-Corruption and Economic Crime laws and their sanction's policies and procedures, Public Procurement and Asset Disposal Act (*no. 33 of 2015*) and its Regulation, and any other Kenya's Acts or Regulations related to Fraud and Corruption, and similar offences, shall apply with respect to Public Procurement Processes and Contracts that are governed by the laws of Kenya.

Requirements

The Government of Kenya requires that all parties including Procuring Entities, Tenderers, (applicants/proposers), Consultants, Contractors and Suppliers; any Sub-contractors, Sub-consultants, Service providers or Suppliers; any Agents (whether declared or not); and any of their Personnel, involved and engaged in procurement under Kenya's Laws and Regulation, observe the highest standard of ethics during the procurement process, selection and contract execution of all contracts ,and refrain from Fraud and Corruption and fully comply with Kenya's laws and Regulations as per paragraphs 1.1 above.

Kenya's public procurement and asset disposal act (*no.33 of 2015*) under Section 66 describes rules to be followed and actions to be taken in dealing with Corrupt, Coercive, Obstructive, Collusive or Fraudulent practices, and Conflicts of Interest in procurement including consequences for offences committed. A few of the provisions noted below highlight Kenya's policy of no tolerance for such practices and behavior:

- (6) An employee, agent or member described in subsection (1) who refrains from doing anything prohibited under that subsection, but for that subsection, would have been within his or her duties shall disclose the conflict of interest to the procuring entity;
- (7) If a person contravenes sub section (1) with respect to a conflict of interest described in

subsection (5)(a) and the contract is awarded to the person or his relative or to another person in whom one of them had a direct or indirect pecuniary interest, the contract shall be terminated and all costs incurred by the public entity shall be made good by the awarding officer.

 - v) "obstructive practice" is:

 - ii) Acts intended to materially impede the exercise of the PPRA's or the appointed authority's inspection and audit rights provided for under paragraph 2.3e. below.
 - b) Defines more specifically, in accordance with the above procurement Act provisions set forth for fraudulent and collusive practices as follows:

"fraudulent practice" includes a misrepresentation of fact in order to influence a procurement process or the exercise of a contract to the detriment of the procuring entity or the tenderer or the contractor, or disposal of the contract, and includes collusive practices amongst tenderers prior to or after tender submission designed to establish tender prices at artificial non-competitive levels and to deprive the procuring entity of the benefits of free and open competition.

² Inspections in this context usually are investigative (i.e., forensic) in nature. They involve fact-finding activities undertaken by the Investigating Authority or persons appointed by the Procuring Entity to address specific matters related to investigations/audits, such as evaluating the veracity of an allegation of possible Fraud and Corruption, through the appropriate mechanisms. Such activity includes but is not limited to: accessing and examining a firm's or individual's financial records and information, and making copies thereof as relevant; accessing and examining any other documents, data and information (whether in hard copy or electronic format) deemed relevant for the investigation/audit, and making copies thereof as relevant; interviewing staff and other relevant individuals; performing physical inspections and site visits; and obtaining third party verification of information.

TERMS OF REFERENCE FOR DESIGN OF THE PROPOSED SERICHO PIPELINE EXTENSION AND IRESABORU WATER PAN.

Project Title: Isiolo Integrated Water Project

1. Introduction and background information

1.1. Background

The Kenya Red Cross Society (KRCS) is a humanitarian relief organization created by an Act of Parliament, Cap 256 of the Laws of Kenya on 21st December 1965. Its vision is to be a leading humanitarian organisation sustainably promoting the well-being, health and resilience of communities.

KRCS with funding support from Water Sector Trust Fund and Isiolo county government is in the process of implementing the Sustainable Management and Access to Water and Sanitation in the ASALs programme (SWASAP). The intervention will be done under three project components; water resource management, water services (water infrastructure) and sanitation (Institutional and CLTS). Pipeline extension for Sericho water supply, desilting and expansion of the water pan in Iresaboru is part of the water services activities to be done under the project.

1.2. Invitation for Proposals

KRCS invites eligible firms/individuals to submit technical and financial proposal for the provision of the services to conduct;

- Survey and design for Iresaboru Water Pan and Sericho pipeline extension.

1.3. Pre-Proposal Site Visits

A pre-proposal site visit to the project area is a mandatory requirement for the assignment. All interested bidders will carry out a site visit to assess the site up to the existing intake / scope of works and provide an appropriate bid.

The consultants must familiarize themselves with local conditions and consider them in preparing their proposals.

The Client through the WASH engineer will arrange for prospective consulting firms or individual consultants to be shown the proposed project site on the **22nd August 2023** and issued with site visit certificate.

Interested bidders should notify the WASH engineer before the visit. **Contact person Obed Mogusu 0710449124.**

Each Consultant will meet his/her own cost for site visits and all associated costs.

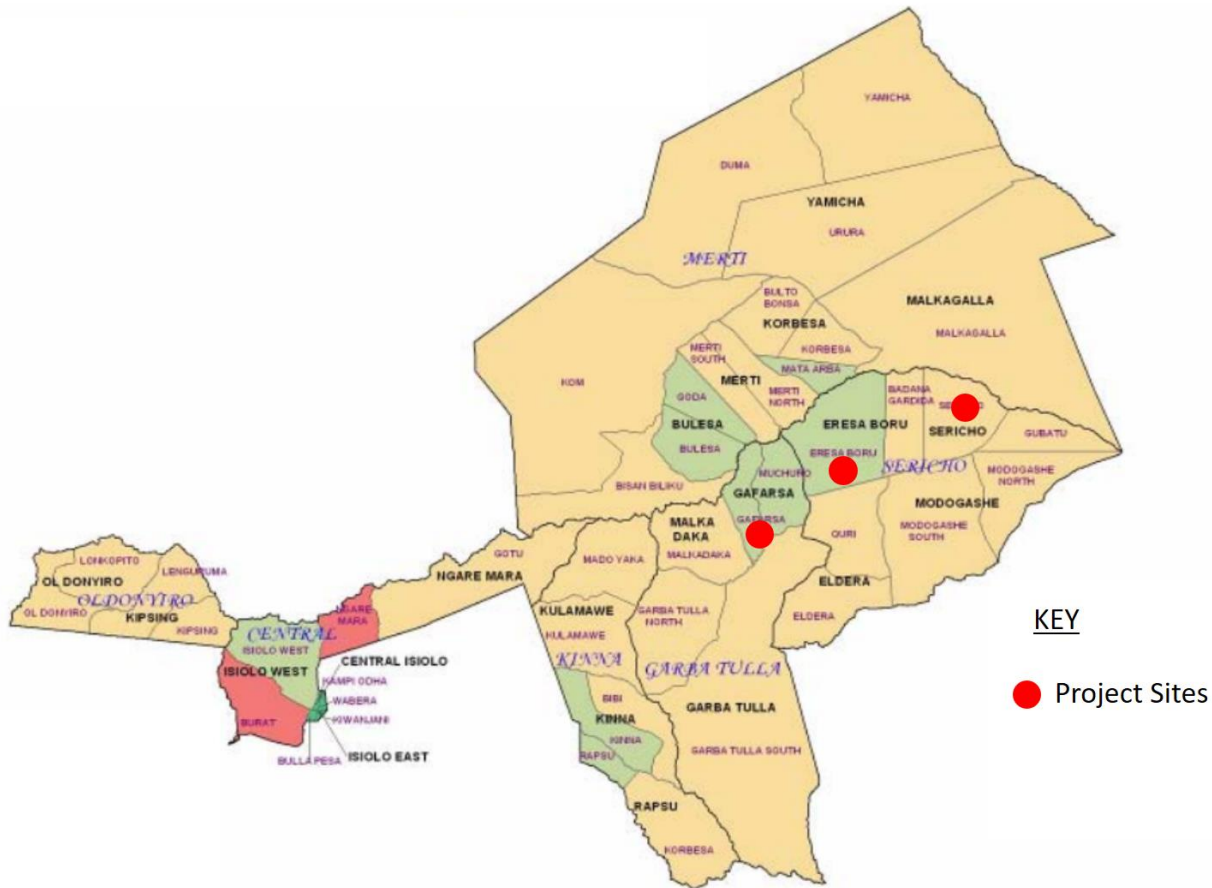

2. Project Goal:

Increased community resilience and adaptation to climate change through sustainable, peaceful use of natural resources including improved access to water and sanitation services in Isiolo county.

3. Location:

The project area is in Sericho (1.135382° N; 39.105194° E) and Iresaboru GPS location (1.074859° N; 38833090° E) villages in Galbatula Sub County.

Figure 1: Location map of the project area

4. Description of Project:

Sericho water supply

The project serves Sericho and Gubatu and Biliqi nur villages with a total population of 8,108 people as per the Kenya Population and Housing Census, 2019. The population at Biliqi nur village covers a return distance of 4km which is more than the recommended less than 500m to the nearest water point and with an average queuing time of three hours which is more than the recommended less than 30 minutes, The Sphere Handbook 2018.

The system is owned and managed by a community based water management committee. In addition to their limited technical knowledge and resources, the Committee struggles to ensure constant water supply through routine maintenance, revenue collection, and customer communication.

The existing water supply system consist of two boreholes, one with a yield of 18.9 m³/hr and the other with a yield of 4m³/hr, 4 Km rising main pipeline 110mm Hdpe, distribution pipeline of total 3.5km varies from 3",2" and 1" uPvc and three elevated pressed steel storage tanks with capacities of 18m³, 25m³ and 50m³ which suppliers water to the 10 kiosks and two watering troughs for the target population. There are three schools; Gubatu primary day with 514 pupils, Sericho primary day 618 pupils and Bahari girls' primary day and boarding 282 which are not connected with water supply.

The proposed intervention of pipeline extension to Biliqi Nur village, Gubatu primary, Sericho primary and Bahari girls will ensure provision of safe water to consumers within target areas.

Iresaboru water pan.

Iresaboru village, in Sericho ward, has in the recent past been affected by floods from the Ewaso Nyiro river that usually burst its banks and redirect its water towards the village. The village that was initially dependent on a borehole is now water insecure as the borehole is submerged in the flood waters. The available water pan has a lot of silt and needs expansion in order to cater for the water needs of the community from one rainy season to another.

The proposed intervention includes desilting and expanding the water pan to a capacity of 50,000m³ (10,000m³ desilting and 35,000m³ expansion will contribute to and additional reservoir capacity of approximately 45,000m³ assuming the current reservoir to be 10,000 m³). Construction of the silt trap and the spillway will be done to reduce siltation and improve drainage of excess water respectively. Grass and trees will be planted on the embankment and fencing done to prevent erosion. A

livestock trough will also be constructed where by pumping to the trough will be done by a solar powered booster pump. The intervention will be serving a population of 3,400 people as per KPHC 2019 census.

The scope of consultancy will include design of reticulation system and electromechanical works.

Scope of Works

The overall scope of the assignment will be:

- a) To design water supply infrastructure for Sericho water supply: Sericho water supply works will include pipeline extensions and rehabilitation, rehabilitation of tanks, troughs and kiosks, construction of elevated steel tanks, water points and design review of the existing solar system and pumping system, camera inspection, test pumping of the two boreholes and water quality analysis.
- b) Iresaboru water pan: Iresaboru water pan design will include desilting, expansion, fencing and construction of trough for livestock.

15. Child Protection Policy

Overview

The Kenya Red Cross by virtue of being a member of the wider Kenyan Community is obliged to contribute to both the national and international efforts geared towards child protection and institutionalization of the concepts that have been advanced by various stakeholders.

Kenya Red Cross recognizes the seriousness of child abuse and its impact to the overall development of a child. Beyond the suffering that it imposes on the child and the immediate family members, the issue of child abuse and the inherent lack of functional structures to absorb the impact leave children vulnerable. This in return translates to socio-economic impact on the country due to poor development of human capital, declining productivity, school drop outs, child labor, marked increase in street urchins and increase in child mortality among others.

Considering the significant contribution by Kenya Red Cross in identification, registration, tracing and re-unification of

unaccompanied minors, there is need to develop the capacity of the Society to rise to the occasion and ensure a holistic approach to child protection in collaboration with other stakeholders.

In light of the above, the KRCS has acknowledged the need for a policy to ensure consistent and equitable approach to child protection. Policy statement

Kenya Red Cross has a professional duty to take such steps that, in the circumstances of a humanitarian institution, are reasonable to see that the child is safe from harm. All children have a right to protection, and the needs of disabled children and others who may be particularly vulnerable must be taken into account. Kenya Red Cross will ensure the safety and protection of all children involved in its activities through adherence to the Child Protection guidelines it has adopted.

Policy aims

The aim of the Child Protection Policy is to promote good practice by:

1. Providing children and young people with appropriate safety and protection whilst in the care of or in contact with Kenya Red Cross staff and volunteers.

- Violence and abuse against children are never acceptable, in any form, location or setting.
- Violence against children has damaging and often long-lasting repercussions for children, their families and their communities.
- Children are vulnerable to violence and abuse due to their size, age, physical and psychological maturity, dependence and lack of power. While all children may be vulnerable, in some settings, some children may have a heightened risk of abuse and violence.
- Children have a right to parental care and to appropriate custody, care and control when parents for any reason are not the legally authorized care giver
- Tracing and the restoration of family links for children is vital in situations of war, conflict and displacement.
- The Fundamental Principles of the Red Cross and Red Crescent Movement forms the cornerstone of this policy. These are:

1. Humanity

KRCS through its child protection policy seeks to protect life and health of vulnerable children to ensure respect for the human being.

SECTION 6. CONDITIONS OF CONTRACT AND CONTRACT FORMS

Preface

1. This Section includes two types of standard contract forms for: A Lump-Sum Contract and a Time-Based Contract. Each type includes General Conditions of Contract (“GCC”) that shall not be modified, and Special Conditions of Contract (“SCC”). The SCC includes clauses specific to each contract to supplement, but not over- write or otherwise contradict, the General Conditions of Contract.
2. Lump-Sum Contract. This type of contract is used mainly for assignments in which the scope and the duration of the Services and the required output of the Consultant are clearly defined. Payments are linked to outputs (deliverables) such as draft or final reports, drawings, bill of quantities, bidding documents, or software programs. Lump-sum contracts are easier to administer because they operate on the principle of a fixed price for a fixed scope, and payments are due on clearly specified out puts and milestones. Never the less, quality control of the Consultant's outputs by the Procuring Entity s paramount.
3. Time-Based Contract. This type of contract is appropriate when it is difficult to define or fix the scope and the duration of the services, either because they are related to activities carried out by others for which the completion period may vary, or because the input of the consultants required for attaining the objectives of the assignment is difficult to assess. In time-based contracts the Consultant provides services on a timed basis according to quality specifications, and Consultant's remuneration is determined on the basis of the time actually spent by the Consultant in carrying out the Services and is based on (i) agreed upon unit rates for the Consultant's experts multiplied by the actual time spent by the experts in executing the assignment, and (ii) reimbursable expenses using actual expenses and/or agreed unit prices. This type of contract requires the Procuring Entity to closely supervise the Consultant and to be involved in the daily execution of the assignment.
4. The templates are designed for use in assignments with consulting firms and shall not be used for contracting of individual experts. In some consultancy assignments such as design and construction supervision, both Lump- Sum and Time-Based Contracts are used and signed with the Consultant. In that case, the Lump-Sum Contract would apply for the design part of the Services while the construction supervision part would be based on a Time- Based Contract. In such event, both types of contracts shall be signed at the same time.

PREFACE

This Section includes a Time-Based Contract. It includes General Conditions of Contract (“GCC”) that shall not be modified, and Special Conditions of Contract (“SCC”). The SCC include clauses specific to each contract to supplement, but not over-write or otherwise contradict, the General Conditions of Contract.

Time-Based Contract. This type of contract is appropriate when it is difficult to define or fix the scope and the duration of the services, either because they are related to activities carried out by others for which the completion period may vary, or because the input of the consultants required for attaining the objectives of the assignment is difficult to assess. In time-based contracts the Consultant provides services on a timed basis according to quality specifications, and Consultant's remuneration is determined on the basis of the time actually spent by the Consultant in carrying out the Services and is based on (i) agreed upon unit rates for the Consultant's experts multiplied by the actual time spent by the experts in executing the assignment, and (ii) reimbursable expenses using actual expenses and/or agreed unit prices. This type of contract requires the Procuring Entity to closely supervise the Consultant and to be involved in the daily execution of the assignment.

The template is designed for use in assignments with consulting firms and shall not be used for contracting of individual experts. In some consultancy assignments such as design and construction supervision, both Lump-Sum and Time- Based Contracts are used and signed with the Consultant. In that case, the Lump-Sum Contract would apply for the design part of the Services while the construction supervision part would be based on a Time-Based Contract. In such event; both types of contracts shall be signed at the same time.

- e All payments under this Contract shall be made to the accounts of the Consultant specified in the SCC.
- f With the exception of the final payment under (d) above, payments do not constitute acceptance of the Services nor relieve the Consultant of any obligations here under.

46 Interest on Delayed Payments

- 46.1 If the Procuring Entity had delayed payments beyond thirty (30) days after the due date stated in Clause GCC 45.1(c), interest shall be paid to the Consultant on any amount due by, not paid on, such due date for each day of delay at the annual rate stated in the SCC.
