

GOVERNOR'S DELIVERY UNIT

THE GOVERNOR'S DEVELOPMENT SCORECARD

Making Isiolo Great

#CGIDELIVERS

MESSAGE FROM THE GOVERNOR

I am honored and delighted to present to you a periodic edition of our service scorecard. Over the past four years, my government has embarked on aggressive effort that involves aligning the government agenda from political promises to action. To walk the talk.

In Isiolo County Government, great strides have been made in ensuring service delivery to the people as promised in 2017 manifesto. The drive to provide better services is evident in the County Government's growing commitment to transforming lives and livelihoods to **make Isiolo Great**. It is my pleasure to inform the public about the achievements accomplished by the County Government as highlighted in this bulletin.

My administration has prudently implemented the CIDP and the manifesto pledges anchored on 4 pillars - **REFORMS, RESOURCES, RESULTS and RECONSTRUCTION** for effective and efficient delivery of services to the people of Isiolo. Under my watch the County Government has witnessed unprecedented transformations touching heavily on critical **result based** priority areas as: Health services, Education, Water, Livestock, Agriculture and Roads in order to enhance quality of life hence improve livelihoods.

I acknowledge the prevailing harmonious working relationship between the County Executive and the County Assembly thus enabling attraction of investors, donors and development partners due to the recognition of the leadership confidence coupled with conducive business environment and relative security prevailing in the county. In this regard, I have signed several memorandum of understanding with many donors and development partners including but not limited to: USAID-NAWIRI, WFP, CRS, CARITAS Isiolo, AAH, VSF, DRIC, MID-P, ACTION AID, LIVING GOODS, MERCY CORPS, BATUK, KSG, FAO, LMS, RLA, SNV, among others.

Currently we are undertaking construction of 6 high investment flagship projects namely: Modern Market, Stadium, County Headquarters, County Assembly Headquarters, KMTCC Projects and completion of Abattoir for meat processing and export which are progressing towards completion. The completion of the goods shed and subsequent operationalization of Isiolo International Airport shall accelerate the accomplishment of the export market thus spurring economic growth in the county.

My government has initiated youth empowerment programs in collaboration with KSG to embrace technology for hastening career growth and rise of innovative opportunities by equipping the youth with competitive and employable technical and vocational skills.

My Government is determined to execute my manifesto and will collectively endeavor to steer this county to greater heights by uniting the people with focus on social, economic, civil and technological reconstruction progress.

Thank you and God bless our County, Isiolo, God bless Kenya.

**H.E. DR. MOHAMED ABDI KUTI,
THE COUNTY GOVERNOR,
COUNTY GOVERNMENT OF ISIOLO.**

MESSAGE FROM THE COUNTY SECRETARY

I wish to take this opportunity to introduce this periodic County bulletin that contains invaluable information and data on status of projects implemented per ward from 2017 to October 2021. We cannot underscore the importance of periodic assessment of projects. When projects are not monitored continuously, there is a high likelihood of project deviation from the design, poor workmanship, misuse of inputs, poor quality products and delay of implementation thus leading to increased project costs.

The Governor has established the Directorate of Efficiency Monitoring in Governors Delivery Unit with the aim of accelerating development performance and fast-track progress on projects and programs with view to promote efficiency and effectiveness in service delivery and development performance. The County Government has now put in place an Electronic County Integrated Monitoring and Evaluation System (E-CIMES) platform which shall serve to review and reflect on implementation progress, successes, lessons learnt and challenges encountered. This will be enhanced by the Geographical Information System (GIS) platform that is in the process.

I wish to appreciate the Directorate of Efficiency Monitoring for publishing this Bulletin which captures main project activities undertaken by H.E the Governor Dr. Mohamed Abdi Kutis' Government.

Since inception of this Government, a lot of development has been initiated in terms of healthcare, water, infrastructure, security, policy development, education funding, relief food and construction of the ward offices. These achievements could not have been realized without support and good cooperation from the County Executive, County Assembly and Partners. Some of the flagship projects have enormous impact once completed in terms of attracting the donors and investors.

The County Government has vacated from manual payments of personnel monuments to a digitalized IPPD system. In order to achieve better performance, the county has adopted performance contracting system for the executives and officers.

I am glad GDU is doing a good job despite limited resource allocation by producing resourceful data and information which will assist in identification of priority areas and development achievements. It is important to recognize that the allocation of funds and activity prioritization are drawn from CIDP, ADP and Departmental Strategic plan.

My office will continue to provide leadership and facilitation to enhance service delivery.

Thank you and God bless.

**DR. AHMED GALGALO,
THE COUNTY SECRETARY,
COUNTY GOVERNMENT OF ISIOLO.**

MESSAGE FROM THE DIRECTOR

It is my humble pleasure to introduce you to this County Bulletin production that captures data on the development achievements under the very able leadership of His H.E. Governor Dr. Mohamed Abdi Kuti.

In order to ensure achievement in implementation, the Governor established Governor's Delivery Unit (GDU) with Directorate of Efficiency Monitoring whose aim is to spearhead the execution and implementation of the manifesto pledges, through continuously assessing projects and programs' status and to collect evidence-based data to be disseminated to the executives for decision making. It is evident that the manifesto achievement is right on track with high success rate.

In ensuring strengthening of his manifesto achievements to the people, the Governor has assented to a number of acts and policies, most recently: County Emergency Fund Act, Education Bursary Fund Act, Livestock Yard sales Act, Youth, Women and People With Disability (PWD) Fund Act, Monitoring and Evaluation policy, Disaster Risk Management policy and Gender Equality and Women Empowerment policy.

In addition, the Governor initiated and implemented 6 key flagship projects with high value, long term investments that will assuredly reap enormous benefits for Isiolo population.

I wish to express my gratitude to all stakeholders from the public, development partners and civil society who have participated directly or indirectly towards the success and achievement of the county, in the projects and programs' implementation in various departments in support of His Excellency's pledges to Isiolo County citizens.

I am delighted to mention the commitment and the dedication of GDU Monitoring & Evaluation officers in the directorate of efficiency monitoring, Mr. Gabriel Lekalkuli and Ms Kabale Jimale who analyzed and compiled the data for production of this bulletin; and Mr. Hussein Mohamed Ali, Chief Public Communication Officer and Mr. Mohamed Abdow Ali, Communication Advisor, Office of the Governor for their contribution resulting in the production of the bulletin.

My special thanks goes to the County Secretary, Dr. Ahmed Galgalo and our Chief Officer - Office of the Governor, Ms Abdia Dabaso whose cooperation has enabled the team to perform well.

Finally, the directorate owes a lot to our County Departmental Heads who cooperated well with the unit in provision of quality data to enable the production of this bulletin that summarizes development scorecard under the stewardship of H.E the Governor Dr. Kuti from 2017 to October 2021.

**UMURO O. HASSAN,
DIRECTOR, EFFICIENCY MONITORING,
GOVERNOR'S DELIVERY UNIT.**

Our Vision

A secure, just, integrated and prosperous county where all enjoy full potential and high quality of life.

Our Mission

Facilitation of an inclusive participatory and vibrant engagement in development that allows optimal utilization of available resources

Our Core Values

- **Inclusive Engagement** - We practice equity and equality and engage all stakeholders in establishing the development needs and priorities to inform the county programmes, projects and initiatives.
- **Social Responsibility** - We care for the citizens and the natural environment.
- **Integrity** - We act in an honest, accountable and transparent manner in all our undertakings.
- **Ownership** - We seek to have the citizens embrace a shared county development agenda and take centre-stage in the formulation, implementation, monitoring & evaluation of county policies and plans.
- **Leadership** - We are committed as county public officers to act with a sense of urgency to address citizens' needs and make qualified decisions in a timely manner.
- **Openness and Innovativeness** - We promote an open and innovative mind-set that strive to apply ingenuity thinking and creativity to everything we do. Our county is open to new ideas and methods and we encourage individuals to explore new opportunities to improve our service delivery.

A MAP DISPLAYING ISIOLO SUB COUNTIES, WARDS AND TOWNS

THE GOVERNORS' MANIFESTO

PILLAR 1: REFORMS

AGENDA 1. PUBLIC SERVICE REFORMS

- ◆ Inculcate the culture of Professionalism, Courtesy and Competence
- ◆ Improve effectiveness and accountability through efficient systems
- ◆ Development of transformative leadership, values and ethics program.
- ◆ Institutionalization of result based management

AGENDA 2. ENHANCING ETHICS, INTEGRITY AND ACCOUNTABILITY

- ◆ Undertake corruption risk assessment and sealing of the loopholes
- ◆ Implementation of public service integrity programs and code of conduct
- ◆ Introduction of online platforms in areas of revenue and procurement
- ◆ Spearhead public education and awareness

AGENDA 3. SERVICE DELIVERY STANDARDS

- ◆ Adopt an office layout and enforcing wearing of name badges by all staff
- ◆ Implementation of result based initiative to enhance Government service delivery
- ◆ Incorporate technology in the service delivery process
- ◆ Implement continuous improvement through customer feedback/Complaint
- ◆ Simplifying of work processes, service standards and develop service charter

AGENDA 4. INSTITUTIONAL REFORMS

- ◆ We will establish sub-county treasuries and strengthen sub-county and ward offices for other Government departments
- ◆ Set up M&E division to assess progress of various government ministries, departments and agencies on project implementation.
- ◆ Decentralize procurement function to sub counties.

PILLAR 2: RESOURCES

AGENDA 5. REVENUE ENHANCEMENT

- ◆ Sealing loopholes of revenue leakages and introducing new revenue streams
- ◆ Conduct business census
- ◆ Streamline revenues from land rates and land related activities through digitalization and strengthen enforcement function

AGENDA 6. HUMAN CAPITAL DEVELOPMENT

- ◆ Construct and equip ECD classrooms and fully equipped polytechnic
- ◆ Construct and fully equip 6 Polytechnics
- ◆ Fully operationalize the bursary fund land act to support needy student
- ◆ Mobilize the private sector to partner with Government to support education
- ◆ Offer scholarships to bright and needy Universities student

AGENDA 7. NATURAL RESOURCE MANAGEMENT

- ◆ To manage resources through Community bases organization
- ◆ Undertake natural resource mapping
- ◆ Carry out land reforms on spatial plan, GIS information system, County master plan and electronic records management.
- ◆ Assuring access to resource by providing clear land tenure and resource use right
- ◆ creating special community tribunal in resolving of property dispute over land.

AGENDA 8. AID COORDINATION

- ◆ Improve Transparency on information development assistance like DPF and AEG.
- ◆ Harmonizing and aligning aid to the county priorities.
- ◆ Eliminate duplication of efforts and rationalize donor activities to cost effective
- ◆ Work together with donors to establish frameworks that provide transparency

PILLAR 3. RESULTS

AGENDA 9. HEALTH SERVICES

- ◆ Reduce neonatal and maternal deaths
- ◆ Improve countywide health information systems
- ◆ Free medical care for our children from birth to age six and pregnant women
- ◆ Consistent supply of essential medicine and commodities on quarterly basis
- ◆ Expand laboratory network in the county laboratory units
- ◆ Strengthen the referral networks and establish integrated mobile health service

AGENDA 10. WATER SERVICES

- ◆ Develop and rehabilitate water source, storage and rural water supplies.
- ◆ Develop drought contingency plan and mechanisms for livestock watering point
- ◆ Construct equitably located and designed water points
- ◆ Acquire water trucking facilities strategically located for dry season use
- ◆ Construct adequate sanitation facilities in strategic public places

AGENDA 11. LIVESTOCK

- ◆ Improve livestock productivity, feeds regulations and develop pasture
- ◆ Integrated development and management of rangelands
- ◆ Improve animal health and quality assurance services
- ◆ Increase equitable access to markets

AGENDA 12. ROADS

- ◆ Upgrade the existing road network to gravel standards to make them all weather road
- ◆ Upgrade 100km of network to paved/ bituminized standard
- ◆ Procure equipment to improve on routine maintenance

PILLAR 4. RECONSTRUCTION

AGENDA 13. ECONOMIC RECONSTRUCTION

- ◆ To rehabilitate, expand and properly maintain physical and social infrastructure
- ◆ Establish Isiolo County Development Corporation (ICDC)
- ◆ To establish a County Economic and Social Council (CESC)
- ◆ Harness the economic opportunities provided by LAPSET and other vision 2030 projects
- ◆ To create a friendly and affordable environment for investment and doing business
- ◆ Improve efficiency and productivity in the productive sectors
- ◆ Initiate youth empowerment programs; Equip youth with technical and vocational skills

AGENDA 14. SOCIAL RECONSTRUCTION

- ◆ Provide foods for targeted subsidies to enable the poor access basic services
- ◆ Strengthen women access to resources and opportunities
- ◆ Adapt affirmative action in employment for people with disabilities
- ◆ Facilitate the mainstreaming of the needs and concerns of women and girls

AGENDA 15. CIVIL RECONSTRUCTION

- ◆ Provide for participatory policy formulation, budgeting and revenue tracking
- ◆ Produce magazines and newsletters quarterly for public access to communication
- ◆ Provide Governor's state of address on September of every year

AGENDA 16. TECHNOLOGICAL RECONSTRUCTION

- ◆ ICT skill development program by increasing IT literacy among youth
- ◆ Promote digital initiatives that promote employment and entrepreneurship

Fencing of concrete fish ponds and fish kiosk

Badana Metallic Vaccination Crush

KEY PROGRESS AT ISILO ABATTOIR EXPO

Intervention (activities)	Overall Rating	% status	Narrative
Construction of Ablution facility	AG	95%	On track with some issues like quality of the doors and painting
Bush clearing	G	100%	On track
Face-lifting, Beautification, Repainting, landscaping, bio-filtration, repair of broken walls and glasses	AG	98%	On track with incomplete beautification and repairs
Re-fencing	G	100%	On track
Access road to the hayshed	R	45%	Major issues since only murraming was done
Access road to manure shed	R	45%	Major issues since only murraming was done
Refrigerated Container based work	G	100%	On track
Camel Holding Segment	G	100%	On track

R	Major issues
AG	On-Track – Some Issues
G	On-Track

Current status

- The project has been tendered to a consultancy firm (SCIP Engineering team) who are currently redesigning the structure
- Progress is good
- Project awaiting equipment

Weak attributes of the project

- Land ownership transfer from National Government to County Government
- Funding for equipment
- Establishment of the Project Committee

Camel Holding Segment and Bush Clearing done

MASS VACCINATION OF LIVESTOCK

The project is in its overall completion stages of about 80% , just awaiting finishing and general equipment as a last stage.
